MODSTREAM POWER SUPPLY

Description

The OCZ ModStream power supply family is the quietest, sleekest, most versatile PSU available today! The ModStream comes in 450W/520W configurations with 550W/620W peak loads; they are the ideal solution for PC-users desiring a high-quality mix of power and versatility in their system. Every ModStream is equipped with OCZ EZMod Technology. This advanced cable management system allows you to truly customize your power system to utilize only the UV cables you require, resulting in optimal airflow and the coolest possible environment within your case! All EZMod cables glow brightly when illuminated with UV lighting accessories.

Specifications

EZMod Advanced cable management system:
EZMod technology allows you to truly customize your power system to utilize only the UV cables you require, resulting in optimal airflow and the coolest possible environment within your case! All EZMod cables glow brightly when illuminated with UV lighting accessories.

Powerful:
450/520 Watt power supplies with 550/620 Watt Peak Load, designed specifically for the most demanding computing environments of gamers, PC enthusiasts, and power users.

Silent Operation:
High performance doesn't have to come with annoying fan noise, and OCZ PowerWhisper technology effectively reduces noise levels to a minimum, making this the quietest power supply on the market!

Cleaner Power
The OCZ ModStream features PowerShield EMI control technology with copper shielded leads to provide the added benefit of extreme current stabilization and delivery of the cleanest possible output to all your critical system components.

Run Cooler:
Experience leading edge reliability and performance with increased air flow, courtesy of a whisper quiet yet extremely vigorous 120mm fan complete with attractive blue LED's.

OCZ 3-Year Warranty
The best PSU comes backed with the finest warranty, and OCZ offers an exclusive 3 year PowerSwap warranty program, providing unsurpassed peace of mind. No more endless return-for-repair loops!

Technical Support
Just as OCZ Technology is committed to bringing you the best products for your personal computer, we strive to provide the best customer support in the industry. Please feel free to email us at: support@ocztechnology.com

MODSTREAM POWER SUPPLY

General Specifications:

1. OCZ PowerWhisper Technology with 120mm fan
2. OCZ PowerShield PCI-Express lead
3. OCZ EZMod advanced cable management system
4. Supports ATX/BTX/PCI Express/SATA
5. Active PFC**
6. 3 Year warranty backed by OCZ's exclusive PowerSwap replacement program. No more endless return-for-repair loops!
7. 160X150X86 mm
8. 95~132Vac / 190~264Vac 10/6a
9. 200~240Vac Only**
10. 450W: +3.3V(28A), +5V(45A), +12V(26A)
11. 520W: +3.3V(28A), +5V(52A), +12V(28A)
12. Over-voltage/Short-Circuit protection

**International Version Only

OCZ-450 12U Watt power supply power specifications							
AC input	95-132Vac/190-264Vac 10/6A 60/50Hz						Peak Load
DC output	+3.3V	+5V	+12V	-12V	-5V	+5VSB	
Max. output current	28A	45A	26A	1.0A	0.8A	2.5A	550W
Max. combined Wattage	220W		312W	12W	4W	12.5W	
	430W			28W			

OCZ-520 12U Watt power supply power specifications
